Advancia Aero's veteran leadership has over 100 combined years' experience of staffing, operations and program management in the federal healthcare environment. As a mission-focused partner, we provide complete solutions for managing human and financial resources, recruiting, and program management in support of world-wide healthcare operations. Since the early 1990's, our team members have successfully supported multiple federal agencies to include the Department of Defense, the Defense Health Agency and the Indian Health Service.

Our management team understands the intricacy of healthcare operations! Our well-rounded team members are all healthcare professionals with diverse backgrounds encompassing healthcare administration, clinical operations management, nursing, and diagnostic imaging disciplines. Our team members have served as subject matter experts and consultants supporting enterprise-level programs and managed operations at Headquarters-level as well as large military hospitals.

Advancia Aero recognizes the talent competition is fierce as the US is experiencing low supply and high demand of quality medical professionals. Our team is relentless in their searches for qualified, experienced individuals who will deliver safe, quality patient care. With our management team comprised of healthcare professionals, we utilize our inside knowledge, professional network and competitive compensation and benefits packages to attract and retain highly skilled candidates. Even as our nation is facing critical staffing shortages, we maintain a >99% fill rate.

When you partner with Advancia Aero for your healthcare staffing and program management needs, you are partnering with a diverse company that truly understands the intricacies of healthcare culture, budgetary conditions, attrition challenges, and retention goals in the federal environment.
